Mr. May:

Mr. McMahon asked me to pass the following on to you as suggested topics for next year's AAS Military Space Symposium.

- 1) Space Arms Control (both sides of that issue -- how do we control the demilitarization of space and how do we use space for verification of same).
- 2) Space Defense Initiative (both sides, red and blue).
- 3) Evidence that Soviets or anyone else are using space systems in direct support of military operations.

Dear John:

On behalf of the American Astronautical Society, our General Chairman Colonel Charles Heimach and myself, I wish to thank you most heartily for your key contribution and participation in our 3rd Annual Military Space Symposium.

The AAS has received an unusually large number of favorable comments concerning the truly professional quality of our speakers on classified and unclassified subjects, and the high quality, timeliness and unique approach of the AAS in encouraging open yet protected discussions. Our Honors and Awards Banquet attracted a large number of senior congressional, military and industry executives who appreciated the laid-back style of the AAS which favored a social environment encouraging maximum interchange and enjoyment. Certainly, the outstanding AAS team who supported me in constructing this symposium enjoyed it all the more because of your thoughtful and positive response and participation.

In my role as General Chairman for next year's 4th Annual Military Space Symposium, I am actively seeking advice concerning a potential theme and content of the meeting. I can think of no better source than this year's speakers who are deeply involved in military space and who have the ability to project ahead one year and pinpoint what we should find current at that time. Let me encourage you to contact me if you have any thoughts on this matter.

Again, my sincere gratitude and that of the AAS go out to you in appreciation for your contribution to our 3rd Annual Military Space Symposium.

Sincerely,

G. Lynwood May
Technical Chairman
3rd Military Space Symposium

Dear Mr. May:

Enclosed is a biography of our Deputy Director John N. McMahon, who will speak at your 3rd Annual Military Space Symposium on June 21st at 8:45 a.m. at the State Department. Due to a full schedule of official duties, he regrets that he is unable to attend the Honors Banquet that evening. Please extend Mr. McMahon's congratulations to Norman Augustine as recipient of this year's award.

I will call you as soon as I know whether Mr. McMahon will be using visual aids in his presentation. The Security Clearance Data sheet will be sent to Donna Fountain in Mr. A. D. Dady's office. As I understand it, all technical sessions are at the Secret Level (NOFORN), and the audience is restricted to U.S. citizens. I would appreciate knowing who will introduce Mr. McMahon and who will be on the dais with him, in addition to those people and their affiliations that he will meet that morning. Please keep me informed of any logistical arrangements that pertain to Mr. McMahon's participation.

I look forward to hearing from you in preparation for the event.

Mr. John N. McMahon
Deputy Director
Central Intelligence Agency
Washington, D.C. 20505

Dear Mr. McMahon:

The American Astronautical Society is sponsoring its Third Annual Military Space Symposium and Honors Banquet on June 21 and 22, 1984 in Washington, D.C. Our theme in organizing the symposium is "Peace and Security Through Space". Our objective is to establish a dialogue between government and industry on the benefits and options available from the use of space in seeking peace and security.

We are honored that you are to be the Keynote Speaker. Your address will provide guidance and will set the tone for the Third Military Space Symposium.

The AAS Honors Banquet will be at 7:00 p.m., June 21 at the Shoreham Hotel, Washington, D.C. This year the Military Astronautics Trophy will be presented to Norman Augustine for his outstanding leadership in the application of astronautics to the development of space systems for national defense. You and your spouse or guest are cordially invited to be our guests at this banquet.

We have enclosed our final program for your information and planning. We will need from you a biography, the audio-visual aids you require for your presentation, the security and registration form (no fee required), and a response to the banquet invitation. If you have any questions or need further information, please contact me at (301) 649-5644 or Carolyn Brown at (703) 751-7721.

Sincerely,

Dear Mr. McMahon

The American Astronautical Society will hold an Honors Banquet on the evening of Thursday, 21 June at The Shoreham Hotel in Washington, D.C., in conjunction with the Society's third annual classified Military Space Symposium to be held on 21-22 June at the State Department.

At the banquet, the AAS will honor Norman Augustine, President, Martin Marietta Aerospace, with the award of its Military Astronautics Trophy for 1984. The trophy is awarded annually for outstanding leadership in the advancement of space systems for national defense. The AAS will also present awards to secondary school students whose projects were judged best at the 29th Annual Fairfax County and Montgomery County Regional Science and Engineering Fairs.

We are pleased to invite you and your spouse or guest to this event, compliments of the American Astronautical Society. All activities are organized in accordance with the appropriate DOD and other government agency directives.

The banquet will begin with a reception at 7:00 p.m. followed by dinner and dancing in the Palladian Room of the Shoreham Hotel at 2500 Calvert Street, N.W., Washington, D.C. Dress will be black tie or summer mess. Your response should be postmarked no later than 1 June 1984. In the event of a "sell out," responses will be accepted on the basis of the postmarks of the RSVPs. Tickets will be mailed prior to the event.

We hope you can join us for a festive evening in honor of Norman Augustine.

Sincerely,

Charles E. Heimach

Mr John N. McMahon
Deputy Director Central Intelligence
Washington, DC 20505

Dear Mr McMahon

The American Astronautical Society welcomes you as the key-note speaker at our Third Annual Military Space Symposium to be held at the State Department on June 21-22, 1984.

[redacted] our CIA liaison officer [redacted] has advised me of your acceptance of our invitation.

STAT
STAT

The AAS is the premier scientific and technical society devoted to space activities of the United States. The Society has earned wide recognition for the excellence and timeliness of its meetings. Although the AAS is not an advocate for any of the various groups taking positions on civil, military and commercial space, we do attempt to ensure a balanced flow of information to our membership. Yours is an important input affecting National and International space efforts.

For over twenty-five years the AAS concentrated on civil and commercial space matters. Three years ago we entered the military space arena by sponsoring an annual classified symposium on military space. Our first two symposiums at the Secret security level (US citizens only) filled a need in the classified space arena that we are continuing to serve.

As described in [redacted] letter to you of 16 Jan 1984 this year's symposium is structured at the National level and reflects the total environment, as contrasted to previous years which have been Air Force dominated.

An updated program draft is attached. The program structure is firm and we are fleshing out the details; for example the exact titles of each presentation. We expect to mail a preliminary announcement in early February and a full program in early May.

Mr McMahon
January 26, 1984

In addition to the classified sessions, there will be a black tie banquet on the evening of the first day and two unclassified luncheons will be held at the Watergate Hotel. You are an invited guest to all of these functions.

will assist you with any questions you may have. If I can be of any assistance, I can be reached at (202) 695-STAT 0545. My Technical Chairman, Gayle May, can be reached at (301) 649-5644. Our business office administrator, Carolyn Brown, can be reached at (703) 751-7721.

Sincerely,

Charles E. Heimach,
Colonel, USAF

16 Jan 84

Dear Mr. McMahon,

On behalf of the American Astronautical Society I would like to invite you to be the Keynote speaker at our 3rd Annual Military Space Symposium which is to be held on the 21 and 22 of June 1984 in the State Department auditorium. You may recall that you attended our awards banquet last year as an invited guest and sat at the VIP table with our former president, Dr. Ted Speaker.

The theme for this year's meeting is Peace and Security Through Space and our objective is to establish a dialogue between government and industry on the benefits and options available from the use of space in seeking peace and security. Basically, the first day addresses the National and International environment within which programs dedicated to the meeting theme must be developed. The second day examines the major areas that must be addressed, including Policy guidance and issues, systems acquisition requirements, and the management/command structure required. The symposium sessions are held at the SECRET NOFORN level of classification; a draft agenda is attached. Those people with checks by their names have already agreed to speak.

Your audience consists primarily of middle- and upper-level managers and scientists from industry and government who have been deeply involved in the US Space and Defense programs, although anyone with a current clearance and US citizenship may attend. Press attendance will be allowed only at the luncheons, which will have unclassified presentations. Although the American Astronautical Society does not, as a matter of policy, offer a fee to speakers, you will be an invited guest at the awards banquet on Thursday, 21 June 84.

I sincerely hope that you will be able to participate and set the tone for the symposium. Should you want more information, or to respond to this invitation, please contact me at [redacted] as soon STAT as possible. As I am an employee of CIA, I am also available to discuss the symposium with you in your office.

Sincerely,

STAT

AMERICAN ASTRONAUTICAL SOCIETY
MILITARY SPACE SYMPOSIUM
1984

THEME: Peace and security thru Space.

OBJECTIVE: To establish a dialogue between government and industry on the benefits and options available from the use of space in seeking peace and security.

PRINCIPLE QUESTIONS:

What Soviet military and political objectives and motivations can best be countered by US initiatives in space?

What space objectives should the US pursue in seeking peace and security?

What areas of investment and system deployment should we pursue in order to enhance our ability at meeting current and future space objectives?
